Jul 23, 2024
Czech Republic

Summary

Location: Prague (Czechia), Barcelona (Spain), Warsaw (Poland), Tel Aviv (Israel), Hyderabad (India)

Our Information Security Compliance Group is looking for an Associate Director - Cloud Security Architect to join our team!

The Associate Director - Cloud Security Architect will work across information security & risk management, with all information technology functions to ensure public cloud and on-premise hosting environments are crafted and implemented as per defined policies, and industry standards. The successful candidate will be a good communicator with deep technical skills and, most importantly, a pragmatist who can think creatively. The individual must be highly collaborative as they will have an opportunity to influence functional leadership, project and application managers, other architects, engineers and developers.

About the Role

Major accountabilities:

- Developing and maintaining security roadmaps and strategy, working with various other security domain architects to align technology and service roadmaps
- Driving new technology/product/solution evaluations, providing leadership in the identification of specific security technology standards for Public Cloud technologies
- Wearing the 'engineering' hat regularly, driving product/solution Proof of Concept with other security architects/engineers
- Identifying and leading your team to develop new security design patterns and participating on our Security Technical Design Authority
- Driving and defining required Threat Modeling methodologies & related tools for Cloud hosting environments
- Being our expert on Cloud and Infrastructure platform security topics and identifying major cloud security related deficiencies, then designing pragmatic approaches on how to remediate them at scale
- Reporting on cloud security posture status across company periodically and is responsible for maintaining a clear risk acceptance/remediation level

Minimum Requirements:
Work Experience:

- 8+ years of relevant professional IT experience in the related functional area, with a solid understanding of IT infrastructure technology, systems and management processes in a regulated industry
- 4+ years of experience as an Information Security Architect

- 2+ years experience working with AWS or Azure security architect (IaaS/PaaS)
- 2+ years working experience in DevOps/DevSecOps models
- Experience of sourcing complex IT services, working closely with vendors and making full use of their abilities
- Demonstrated ability to build and maintain successful relationships with senior leaders from risk or non-risk/IT or non-IT backgrounds and ability to successfully manage projects involving multi-functional teams in a matrixed environment

Nice to have:

- 5+ years of experience of working in or providing IT services to a large enterprise like Novartis
- Relevant certifications:
  -Security related certifications: Certified Cloud Security Professional (CCSP), Certified Information Systems Security Professional (CISSP),ISO 27001 Lead Implementer
  - Technology related certification: AWS Certified Solutions Architect - Professional, AWS Certified Security - Specialty, Microsoft Certified: Azure Solutions Architect Expert

Languages :

- Proficiency in English (written & oral).
