

Director, Product Strategy Lead - Renal

Job ID
REQ-10032264
Dec 17, 2024
USA

Summary

The Director and Product Strategy Lead will lead the creation, implementation, orchestration and measurement of the integrated product strategies for an indication of a product within a given therapeutic area in the US, under the leadership of an Executive Director, Product Strategy Lead. This individual will contribute to the key decision making for maximizing the impact of the product while managing resource allocation across multiple teams, in consultation with functions including: Marketing, Sales, Patient Specialty Services, Market Access, Managed Markets and Medical about their respective strategies, plans and proposed resourcing. This role will contribute to the management of the full P&L for the assigned product, under the final leadership of the Product General Manager and will partner closely with functional heads for decision-making of resource allocation to deliver the most accelerated impact for the product.

#LI-Hybrid

About the Role

Key Responsibilities:

- Define critical and specific integrated priorities and key impact measures for assigned product/indication in consultation with the cross-functional product strategy team under the final leadership of the Product/Portfolio General Manager.
- Integrate, lead, measure and take decisive action against the KPIs on the integrated product strategy to raise impact for product
- Significant contribution to the P&L of a product/indication while enabling partner functions to manage day-to-day resource management
- Integrate key insights and data in partnership with functional heads to have an adaptive strategy and tactical plan in service of higher impact for our medicines
- Significant contribution to the topline results as an outcome of strategic choices and to the integrated cross-functional resource allocation to deliver highest impact
- Establish and coordinate management of KPI's across all functions accountable for the integrated product strategy
- Appropriately partner with functional heads in trade-off decisions
- Partner with other general managers and members of the Product Strategy group for enterprise decisions, including potential trade-offs between products/indications
- Talent development, retention and growth and culture custodianship
- Depending on the product / indication, interactions with Global to ensure an effective ways of working

This position is based in East Hanover, NJ and will not have the ability to be located remotely. Novartis is
