South Korea

Summary

- Lead scientific engagement with their Medical Experts. Implement clinical and educational strategies and respond to unsolicited medical enquiries.
- Internal Job Title: CML Field Medical Lead

About the Role

Major accountabilities:

- Engage with Medical Experts (MEs) to educate on medical/scientific information
- Ensure appropriate identification/mapping of MEs/ Key Accounts including identification of opportunities to involve MEs when a specific medical need is identified to provide support
- Develop and execute ME engagement plans to effectively prioritize and strategically engage MEs aligned with country strategy.
- Respond to unsolicited requests for information from MEs
- Support Novartis clinical research programs, optimize trial execution and provide scientific educational support to potential and actual study sites in collaboration with clinical operations.
- Facilitate Investigator Initiated Trial (IIT) process upon investigator request -Serve as a medical resource to field matrix colleagues

Minimum Requirements:

- Medical Knowledge: Strong understanding of CML and pharmacology, with the ability to interpret clinical studies. Proactively keeps medical knowledge up to date and shares it with others.
- Team Player in Fast-Paced Settings: Experience or strong interest in working in dynamic environments, especially involving collaboration, innovation, or new product launches.
- Strong Ethics & Communication: High ethical standards and excellent communication skills. Able to handle both routine and unexpected situations with various stakeholders.
- Field Experience: Comfortable speaking with healthcare professionals. Holds a medical or pharmacy license, or has at least one year of experience in the pharmaceutical industry.
- Language: Business proficiency in English and local language skill
