

Specialist - SAP UI5/FIORI

Job ID
REQ-10054464
Jun 17, 2025
India

Summary

Location: Hyderabad

As an integral member of the Development Factory, this role will be responsible for designing, developing, and implementing solutions utilizing Fiori, UI5, and cloud technologies within the ERP domain. You will collaborate with design experts, technology architects, vendors, project management teams, third-party users, and business stakeholders to deliver impactful results in the ERP space. Additionally, you will be a key contributor to our DDIT APD team.

About the Role

Major Accountabilities

- Take ownership of designing, developing, and implementing business process solutions and services using Fiori, UI5, and Cloud technologies as part of Dev Factory project deliverables.
- Serve as a provider and coordinator of technical expertise in SAP development technologies such as Fiori, UI5, and Cloud, ensuring the successful execution of projects.
- Contribute to project and enhancement quality management activities, including peer reviews, quality checks for specifications, design documents, and code reviews.
- Perform hands-on tasks such as solution design, architecture development, proofs of concept (POCs), and application development.
- Proactively establish effective working relationships with IT teams, business stakeholders, peers, and external partners, fostering collaboration where necessary.
- Maintain critical knowledge to effectively assess services provided by vendors and third-party collaborators, documenting processes and policies utilized within the Development Factory.

Minimum Requirements

- Bachelor's degree in computers or a related field.
- A minimum of 2+ years of experience in SAP UI5/Fiori development, with a strong understanding of front-end web technologies.
- Ability to work collaboratively in a team-oriented environment and communicate effectively with SAP team and stakeholders.
- Having BTP experience is a plus but not mandatory.
