Malaysia

Summary

4! The 4 essential elements that shape our culture: Inspired. Curious. Unbossed. Integrity. Our mission is to discover new ways to improve and extend peoples' lives. Your passion to build, execute business plans to meet the sales goals, develop effective professional business relationships with Healthcare Professionals will help the world understand what these medicines do, why they matter and how Novartis is striving to reimagine medicine. In line with overall product strategy, the Senior Medical Scientific Liaison leads scientific engagement with Medical Experts and implement clinical and educational strategies and respond to unsolicited medical enquiries.

About the Role

Your Responsibilities:

Your responsibilities include, but not limited to:

- Engage with Medical Experts (MEs) to educate on medical/scientific information
- Ensure appropriate identification/mapping of MEs/ Key Accounts including identification of opportunities to involve MEs when a specific medical need is identified to provide support
- Develop and execute ME engagement plans to effectively prioritize and strategically engage MEs aligned with country strategy .
- Respond to unsolicited requests for information from MEs
- Support Novartis clinical research programs, optimize trial execution and provide scientific educational support to potential and actual study sites in collaboration with clinical operations.
- Facilitate Investigator Initiated Trial (IIT) process upon investigator request -Serve as a medical resource to field matrix colleagues
- Reporting of technical complaints / adverse events / special case scenarios related to Novartis products within 24 hours of receipt. Distribution of marketing samples (where applicable).

Minimum requirements

What you'll bring to the role:

- Degree in Pharmacy, Medicine or PhD in Science.
- English Clinical Research Phases; Medical Science and Disease Area Knowledge; Medical Education and Scientific Engagement; Third-Party Sponsored Trials Medical Governance
- Able to understand changing dynamics of Pharmaceutical industry
- Proficient and fluent in English (spoken and written), with good interpersonal and communication skills.
- Digital & Technology Savvy
