

Global Program Regulatory Manager - Life Cycle Management

Job ID
REQ-10011606
Jul 03, 2024
United Kingdom

Summary

Our Development Team is guided by our purpose: to reimagine medicine to improve and extend people's lives.

To do this, we are optimizing and strengthening our processes and ways of working. We are investing in new technologies and building specific therapeutic area and platform depth and capabilities – all to bring our medicines to patients even faster. We are seeking key talent, like you, to join us and help give people with disease and their families a brighter future to look forward to. Apply today and welcome to where we thrive together! The Role: This role offers hybrid working, requiring 3 days per week in our London office. As Global Program Regulatory Manager – Life Cycle Management, you will work with the support of a RA Program Lead to develop and implement the global regulatory strategy for program(s) through development, registration and post approval in the assigned region(s). The Global Program Regulatory Manager - LCM Management is also a member of the RA sub team and may lead or represent RA in regional or cross functional teams.

About the Role

Major accountabilities:

Regulatory Strategy

- Provide input to global program regulatory strategy, including regulatory designations & innovative approaches.
- Coordinates regulatory readiness with other line functions, Country Organizations & Regions, representing RA or leads in regional RA or cross-functional activities providing strategic input into cross functional deliverables.
- Contributes to the development and maintenance of key documents, determines the requirements and coordinates the activity for HA interactions. May facilitate HA meetings or act as local HA liaison respectively.

Regulatory Submissions

- Leads planning, preparation and submission of clinic trials, and the implementation of defined global registration strategy into regional submissions worldwide with country organisations.
- Coordinates, plans and prepares for submission of initial registrations and post approval applications, and the preparation, review and maintenance of local product information as assigned.

- Lead regulatory activities during HA reviews, responding to questions and HA interactions.

Regulatory Excellence & Compliance

- Ensures timely RA input and submission of regulatory compliance and maintenance reports, maintaining regulatory information in compliance databases and document management systems.

Life Cycle Management

- You may also focus on one of the following key areas of activity:
- Maintenance – preparation of selected global regulatory submissions.
- Portfolio Transformation – e.g. streamlining activities, divestment/ integration, portfolio transformation and manufacturing transfer.
- Business & Operational Excellence – collating, for example, registration samples, CPPs etc. to support submissions.

Your Experience:

- Science based bachelors degree, plus an understanding of pharmaceutical development, clinical trials.
- Track record of involvement in regulatory or pharmaceutical development, in one or more major regions.
- Strong interpersonal skills and experience working in a complex, cross functional organization and leading cross function teams.
- Compliance and Quality mindset.
- Fluency in English.
