Job ID
REQ-10012299
Jun 28, 2024
India

Summary

This role will help drive the execution of Novartis' ambition to turn data and digital into a strategic asset to drive actionable insights across the organization in the area of Procurement Accounts Payable. This ambition is one of key pillars in the broader digital transformation happening at Novartis to be a focused medicines company powered by data and digital. Accountable for the Procurement Accounts Payable design work package. Build and deploy LDC in-scope processes and data based on the user-requirements defined in conjunction with the domain pillars and the E2E data team. Working with architecture to identify new technologies and the new possibilities arising out of it.

About the Role

Key responsibilities:

- Accountable for the LDC Core Design for Procurement Accounts Payable along with the business requirements based on the Novartis architectural standards, performance, quality and security principles
- Accountable for deciding on design decisions for complex issues in strong collaboration with the respective functional GPOs and LDC Pillars based on a detailed rational and interpretation to fully understand implications of the proposal for the integrated solution
- Accountable that Procurement Accounts Payable core design meets business and user requirements, adheres to high level conceptual design and it is traceable, it is aligned with architectural roadmap, improves and sustains standardization efficient while respecting regulatory/control requirements (e.g., NFCM-control requirements, P3, TPRM, GxP) and supports the development, execution and operations of solutions
- Work (together with the IT Expert) on Procurement Accounts Payable to ensure integrated solutions by strongly being connected to experts in connected work packages, data & analytics, by applying a continuous improvement mindset
- Prepare and run fit-gap workshops across Procurement Accounts Payable, identify critical integration points and dependencies, propose solutions for key gaps, provide effort estimations and alignment with business teams
- Accountable that dedicated project work is delivered to agreed time, cost and quality constraints following the release calendars. Accountable that the solutions are peer reviewed, formally documented and signed off by domain pillars and business functions Accountable that solution testing is performed and meet quality standards
- Champion the need to stay standard from a customization perspective by establish standardized design and development processes to enable cost effective delivery
- Ensure adherence with all relevant internal / external security and compliance policies and procedures (e.g. FDA, Novartis IGM framework) Ensure close collaboration with pillar teams and country reference

group members, regular meetings and workshops are conducted and feedback from operations is taken into consideration.

Essential Requirement:

- CA / MBA (Finance) or Equivalent/University Degree ideally in accounting, finance, or economics.
- Extensive experience in operational Procurement: P2P/accounts payable, business analysis, operational excellence, process improvement and change management.
- At least 3 years' experience in country and global roles

Desirable Requirements:

- Additional Project Management training, a certification/designation desirable
- Lean / Six Sigma Certified preferred
