

# Health Economics and Outcomes Research Manager

Job ID  
REQ-10012564  
Jul 02, 2024  
United Kingdom

## Summary

The purpose of the HEOR Manager role is to: manage the development of HTA strategies and plans which are aligned to brand plans for new and existing products; manage cross-functional teams in the development and submission of evidence dossiers to NICE, SMC and AWMSG, and; manage HTA processes, including consultation phases, to achieve the desired outcomes to time, message and budget. The successful individual will matrix-lead cross-functional teams in the development and submission of evidence dossiers to NICE, SMC and AWMSG, as well as overseeing HTA processes, including consultation phases, to achieve the desired outcomes.

## About the Role

### Your responsibilities:

#### Your responsibilities include, but are not limited to:

- Strong understanding of HTA needs and expertise to develop and deliver high quality submissions
  - Identification of critical evidence gaps early to inform global and UK opportunities to develop timely solutions
  - Global interaction to ensure that the UK needs are understood and prioritised
  - Be the UK internal source of HE&OR/HTA expertise, and keep abreast of trends and developments
  - Effectively engage to ensure positive interactions with HTA bodies and effectively represent the company at public committee meetings and other HTA-associated meetings as required (e.g. with NHSE)
  - On-time, on-budget delivery of the evidence and HTA submission/responses
  - Internally communicate the HTA strategy, risks and mitigation plans to enable meaningful wide stakeholder engagement
  - Manage internal and external suppliers to develop, adapt and validate HTA deliverables (e.g. systematic literature reviews, indirect & mixed treatment comparisons, health economic models, and submission documents)
  - Manage cross-functional teams in developing high-quality HTA submission dossiers and high-quality responses to consultations, questions and requests from HTA bodies
- Conceive and/or implement HE&OR evidence generation projects to address data gaps for HTA submissions and manage/support their delivery in accordance with company processes

## Minimum requirements

### What you'll bring to the role:

- MSc in Health Economics or similar discipline
- Strong understanding of HTA needs and expertise in developing and delivering high quality submissions

- Excellent written and verbal communication skills with a broad range of stakeholders
- Demonstrate a customer-focused mindset, with strong working knowledge of UK healthcare system and stakeholder management
