Slovenia

Summary

You can be a key part of the team that is driving and implementing Digital strategy for QC area therefore impacting large user population to enable them to perform their work in laboratories more efficiently and with improved user experience!

The Associate Director QC IT - LIMS Master Data Governance will be joining Quality IT Global Team and will be responsible for supporting delivery and operations of LabWare LIMS across all Novartis Operations Sites. In this role, you will work to enable creation, update and deployment of Master Data within the QC and AS&T area for Novartis Operations & Quality.

About the Role

Major accountabilities:

- As part of the Global IT team supporting delivery and operations of laboratory applications, drive solution delivery and implementation of IT applications as standards for Novartis Operations laboratories.
- Partner with Novartis Quality Control personnel to understand the needs and priorities of the business, and to deliver the best solutions possible to meet the needs of the end user.
- Establish and maintain governance of Master Data Deployment with regards to efficiency and quality
- Provide governance to external partners on Master Data creation, update and deployment activities
- Create/deploy LabWare LIMS Master Data to QC sites across the Novartis Operations network
- Coordinate, prioritise, and manage the deliverables as part of the project implementation team, in alignment with goals and objectives set by management.
- Day-to-day support and engagement with external teams supporting the delivery and operations of the laboratory applications.
- Pro-actively seek to identify and communicate risks, challenges, opportunities for improvement.
- Share learnings and experiences across teams, with a view to implementing best practices for Novartis operations.
- Manage vendors providing services in QC-IT area and monitor vendor's performance
- Monitor adoption and usage of global LabWare LIMS to ensure consistent usage and value realization; propose adoption improvements and drive resolution of any adoption challenges in collaboration with other IT teams and business
- Address escalations and drive towards resolution in collaboration with other IT teams; manage stakeholder communication
- Support future Digital strategy and long-term roadmap in QC and AS&T area for NTO & Quality

Minimum Requirements:

Work Experience:

- Bachelor university degree or higher
- At least 5 years experience in Quality Control area
- At Least 5 years experience in LIMS Master Data Building (LabWare or similar)

For Slovenia

Lahko ste ključni del ekipe, ki vodi in izvaja digitalno strategijo za področje QC, s čimer vpliva na veliko populacijo uporabnikov, da jim omogoči učinkovitejše in izboljšano uporabniško izkušnjo opravljajo svoje delo v laboratorijih!
