

Senior W&D Analyst

Job ID
REQ-10023253
Oct 04, 2024
Brazil

Summary

Location: Brazil #Hybrid

About The Role:

We are seeking a highly skilled Senior W&D Analyst to join Novartis W&D operations team in Brazil. The candidate will play a crucial role in optimizing our warehouse and distribution processes, collaborating with multiple third-party suppliers, including logistics operators and carriers. This position involves leveraging SAP systems, supporting financial governance and driving savings projects and operational improvements.

About the Role

- **Supply Chain Optimization:** Implement enhancement projects to increase warehouse and distribution efficiency, reducing costs and improving service levels.
- **Supplier Management:** Collaborate with third-party logistics providers and transportation companies to ensure compliance with service agreements and operational standards.
- **Data Analysis:** Utilize SAP and other analytical tools to monitor key performance metrics, identify trends, and provide actionable insights for continuous improvement.
- **Financial Governance:** Support and execute financial control and governance within the W&D area, ensuring adherence to budgetary constraints and financial policies.
- **Project Leadership:** Participate in projects focused on savings initiatives and operational enhancements, ensuring alignment with corporate goals.
- **Cross-Functional Collaboration:** Work closely with procurement, production, and quality assurance teams to streamline processes and ensure alignment across the supply chain.
- **Reporting:** Prepare and present regular reports on performance metrics, project progress, and improvement recommendations to senior management.

Key Performance Indicators:

- **Cost Savings:** Measure the impact of implemented projects on overall logistics and distribution costs.
- **Financial Compliance:** Assess adherence to financial governance standards and budgetary controls within the W&D area.
- **Supplier Performance:** Evaluate third-party supplier performance against key service level agreements (SLAs).
- **Project Milestones:** Track the successful completion of project deliverables within set timelines and budgets.
- **Data Accuracy:** Ensure the accuracy of 3PL data inputs in reporting tools.

Minimum Requirements:

- **Education:** Bachelor's degree in Supply Chain Management, Business Administration, Finance, or a related field. A Master's degree is a plus.
- **Experience:** Minimum of 4 years of experience in warehouse and distribution operations, preferably in the pharmaceutical or healthcare sector.
- **Technical Skills:** Proficiency in SAP and advanced Excel skills; familiarity with data analysis tools and methodologies.
- **Financial Knowledge:** Experience with financial governance and budget management within operations.
- **Project Management:** Demonstrated experience managing projects with cross-functional teams.
- **Language Skills:** Fluent in English
- **Soft Skills:** Strong analytical, problem-solving, and communication skills; ability to work independently and collaboratively in a fast-paced environment.
