Summary

Location: East Hanover, New Jersey

This position will be located at the East Hanover site and will not have the ability to be located remotely. This position will require travel as defined by the business (domestic and/ or international).

Please note that this role would not provide relocation and only local candidates will be considered

The Associate Director of NPS Vendor Operations will be responsible for the day-to-day oversight of an assigned group of vendor accounts that are providing services – hub, co-pay, adherence, free goods, digital, etc. – to the Novartis Patient Support (NPS) organization. He / she will serve as the single point of contact to manage vendor deliverables and performance. This candidate will require strong collaboration and prioritization skills to drive alignment across vendors and internal stakeholders, while managing multiple initiatives across several therapeutic areas.

This individual will work closely with NPS Disease Area & Product, Process Mapping, Requirements & Improvement, Quality, Enterprise Content Design, as well as Novartis Innovative Medicines Procurement, Contracting, Finance, Legal, Privacy and Compliance partners

About the Role

Major Accountabilities

- Serve as program owner and single point of contact for day-to-day vendor operations across a combination of key vendors / therapeutic areas, while managing all internal processes and governance protocols as they pertain to vendor management
- Partner with NPS stakeholders, procurement and contracting to develop or renew statements of work (SOW) and task orders (TO), scoping out vendor budgets, key deliverables etc.
- Align with NPS Disease Area & Product and NPS Product teams to understand priorities and program design & strategy based on customer & patient needs, targeted outcomes, market events etc.
- Collaborate with NPS Process Mapping, Requirements and Improvement to create standardized vendor business requirements documents (BRDs), while aligning with NPS Disease Area & Product operations and Enterprise Content Design to ensure vendor priorities, assets and milestones are up to date
- Own development, execution, approvals, change management and version control processes for vendor

BRDs, and ensure they align with vendor standard operating procedures (SOPs) and process flows

- Plan and project manage execution of prioritized vendor milestones and deliverables, communicating status and risks across stakeholder matrix
- Maintain oversight of vendor performance, identifying opportunities for operational enhancements and continual improvement, while supporting enterprise and program-specific business reviews
- Responsible for identifying and reporting adverse events via the established Novartis systems as per applicable processes
- Facilitate and oversee vendor training, audit, quality compliance monitoring and escalation / issue resolution processes, including stakeholder communications around risk or non-compliance, as well as mitigation actions to uphold or restore business continuity and quality standards

Education Requirement:

- Bachelor degree required
- Advanced degree (MA, MS or MBA) preferred

Minimum Requirements:

- 5+ years of healthcare system, account or vendor management experience, including direct pharmaceutical experience in patient services
- 3+ years of program operations management experience
- Significant experience in project managing vendor onboarding, change management / transitions and milestone delivery
- Strong planning, organization, communication and problem-solving / escalation resolution skills.
- Proven ability to collaborate cross-functionally within and across internal functions
- Demonstrated ability monitor program performance and develop data-driven diagnostics and recommendations
- Customer focused with ability to develop long-term relationships with stakeholders and gain their trust and respect
