- Lead the design and implementation of strategies to enhance service delivery across IT operations in line with business objectives.
- Oversee the global application portfolio, ensuring that all IT services align with business requirements, regulatory standards, and evolving industry trends.
- Evaluate and prioritize application investments in collaboration with stakeholders to enhance the organization's automation capabilities.
- Lead change management initiatives, ensuring successful deployment of new applications and updates while minimizing disruption to ongoing operations.
- Identify areas for operational efficiency and develop transformation initiatives that support a culture of continuous improvement.
- Govern the service operations, service transition, quality, compliance, and audit readiness of services delivered.
- Collaborate with cross-functional teams to ensure alignment of IT services with project delivery by implementing DevSecOps processes.
- Develop and implement continuous improvement frameworks leveraging ITIL best practices to identify, analyze, and optimize service delivery processes.
- Govern key performance indicators (KPIs) and metrics to measure service quality and effectiveness, driving accountability and transparency.
- Facilitate regular operational reviews and retrospectives to capture lessons learned, ensuring best practices are documented and shared organization-wide
- Provide highest business value through effective management of IT resources (people, financial

resources, vendor partners and services) related to the function.

- Manage relationships with third-party vendors and service providers, ensuring compliance with service-level agreements (SLAs) and performance expectations.
- Conduct regular vendor assessments and performance reviews, driving accountability for service delivery and identifying opportunities for improvement.
- Negotiate contracts and manage vendor-related risks to optimize service cost-efficiency and quality.
- Meet customer and internal IT service levels and proactively drive continuous service improvement collaboration with the Service excellence team
- Contribute to enabling operational excellence and continuous improvement in the Service quality across TT.
- Own and drive the delivery of the service ensuring delivery to SLA and Service continuity meeting the consumer needs.
-

Minimum Requirements

- Bachelor's degree in IT or equivalent experience
- Proven experience with ITIL and ITSM frameworks, preferably in Salesforce environments.
- Experience in leading service improvement initiatives utilizing Six Sigma methodologies will be considered an asset.
- 9+ years of experience in IT service management, with a focus on operational service delivery and continuous improvement.
- Consistent track record of broad industry experience and good understanding of complex enterprise IT landscapes and relationships
- Strong vendor management skills with a track record of managing third-party service providers in a complex organizational context.
- Demonstrated experience in global application portfolio management and ability to align IT services with business strategy.
- Exceptional communication and interpersonal skills, with the ability to engage and influence stakeholders at all levels.
- Excellent analytical and problem-solving skills, with a data-driven approach to decision-making.
- Strong leadership qualities with experience in team development and mentoring.
- Experience in advising peers and senior customers on complex issues and provide complex, contextual guidance to influence actions of internal and/or external partners
- Experience in handling internal and external experts in different locations and time zones
