Belgium

Summary

We are seeking a talented and experienced Architect to join our dynamic team. The ideal candidate will play a crucial role in designing and overseeing the construction of state-of-the-art pharmaceutical facilities. This position requires a deep understanding of architectural principles, pharmaceutical industry standards, and regulatory requirements.

About the Role

Key Responsibilities:

- Design and develop architectural plans for pharmaceutical manufacturing and research facilities.
- Collaborate with cross-functional teams including engineering, project management, production and quality
- Ensure compliance with GMP (Good Manufacturing Practices) and other industry regulations.
- Conduct site evaluations and feasibility studies.
- Manage project timelines, budgets, and resources effectively.
- Provide technical guidance and support throughout the construction process.
-

Qualifications:

- Bachelor's or Master's degree in Architecture.
- Minimum of [X] years of experience in architectural design, preferably in the pharmaceutical industry.
- Knowledge of GMP, FDA, and other regulatory standards is a plus
- Proficiency in architectural software (e.g., AutoCAD, Revit).
- Excellent communication and teamwork skills.
- Ability to manage multiple projects simultaneously.

Commitment To Diversity And Inclusion
