Summary

To manage and lead a Scientific Communications Therapeutic Area team/squad to produce high quality scientific documents/deliverables, by providing functional and operational leadership and implementing management control of the assigned team/squad.

About the Role

Location – Hyderabad #LI Hybrid

Major Responsibilities:

- Leads a medical writing team/squad for an assigned brand or for a specific TA. Ensures production of scientific deliverables/ documents which adhere to highest quality, timeliness and efficiency standards.
- Accountable for the accuracy of the scientific content of the deliverables produced by the group/team (data accuracy and scientific messages). Accountable for the adherence to processes/ guidelines / SOPs and ensure inspection / audit readiness of all relevant documents for her/his assigned group/team
- Monitors and tracks KPIs for the team/squad. Proactively takes measures to improve KPIs in agreement with Function head and QC manager. Identifies and resolves operational issues. Recommends potential solutions and manages number of escalations.
- Ensures exemplary communication with customers in USMA. Manages customer expectations efficiently. Owns and ensures deployment and completion of initiatives and programs developed towards creating scientific and functional excellence
- Acts as consultant on medical communications or assigned service for her/his Function Head and to other functions/ teams. In partnership with USMA Med Comms, Recruit talent, manage performance (set objectives, review performance and plan compensation) and develop associates (development/training plans, Organizational Talent Review, coaching or mentoring, as appropriate).
- Manages performance of his/her individual team members including performance reviews aligned with Novartis policies.

Minimum Requirements:

- 5 + years' experience in Medical Communications with proven people leadership
- Experience in a wide array of Medical Communications activities, including, but not limited to, publications, slide decks, symposia, standalones, advisory board meetings, etc.

- Track record in developing Medical Communications plans

Education:

- Minimum: Healthcare professional degree or degree in a healthcare-related field.
- Desirable: Advanced degree (PhD, PharmD, MD) in life science/healthcare. Demonstrated ability to establish effective working relationship in a matrix and multicultural environment.
